Attached are comments that WildEarth Guardians and others submitted on the Bureau of Land Management's proposal to create a list of federal actions undertaken in the Upper Green River Basin ozone nonattainment area that are presumed to conform to the Wyoming SIP in accordance with general conformity rules at 40 C.F.R. § 93.150. The BLM's proposal raises concerns over compliance with NEPA and EPA general conformity rules.

Attached, please find comments regarding the Bureau of Land Management's proposed "presumed to conform" list of actions for the Upper Green River Basin Nonattainment Area in Wyoming. Also attached are Exhibits 1-4 out of 15. Due to their size, Exhibits 5-15 will be sent in subsequent e-mails. Thank you.

Sincerely,

Jeremy Nichols
